Health Care (Government & Public Sector):

DESCRIPTION:

The Centre for Medicare and Medicaid Services (CMS) provides health coverage to more than 100 million people through Medicare, Medicaid, the Children's Health Insurance Program. The CMS seeks to strengthen and modernize the Nation's health care system, to provide access to high quality care and improved health at lower costs. The program gets its name from its mission. The word HEALTH stands for "Helping to Engage and Achieve Long Term Health."

The new solution provides an integrated approach to applying for and receiving health benefits in State and allows the participants to make an informed decision by comparing different options available to them. The solution uses new technology to reduce manual processes and allows more self-service options for the recipients. with temporary Card issued against their name.
