 Email:arup.kumar.das06@gmail.com

- **PROFESSIONAL SUMMARY**

Overall 11 years of experience.4.5 Years in DevOps/ Build and release.

- **SKILLS SUMMARY:**

TFS 2012 &2015, Jenkins,SVN, Weblogic, Websphere, Clearcase, Linux, , U-Deploy, Powershell, VSTS, Ms Build,

OPERATING SYSTEM: Windows & Linux.

SOFTWARE APPLICATION SUPPORT

WORKING Experience

Company Name : Global Computer Academy

Work Location : Kolkata

From Sep 2017 till date.

Client Optimizeit solutions.

Role: Deployment/Automation Engineer

TFS, SVN, git hub, Install shield 2012

Deployment of. Net projects

Company Name : SE-MENTOR

Client : Reliance Jio telecom.
> From July 2015 to July2017,
> Work location Mumbai(India)

ROLE Senior Deployment Engineer and PLM/ DevOps/Build & Release management/Manual testing(Sanity)
> Build and release, Deployment
> > U-Deploy Automation **, packaging tool - Wix**
> > Skills- TFS(code merge, permissions, branching, triggering new builds CI/CD & automation)
> > VSTS Branching, Merging, Debugging, Lavel, Mapping etc

> Application packaging install Shield.

> Visual studio 2012/2010, (TFS 2015 Basic Knowledge) Build & Release, SCM, Powershell/Linux Shell Scripting)

TFS 2012,2015(XMAL & Vnxt). Linux, MS build , Power Shell, Build Automation, Release management, Deployment

In various enviromnment

TFS Admin.
> Azure and other cloud base

> Sharepoint, SVN, Web sphere.
> TFS activity.
> Sql DB
> System monitoring tools: ITSM, IBM rational tool, U-deploy, HPSM
> Server upgradation, Code merge, branching, debugging
> Skills -   Release Management Team - Rational ClearCase, Tivoli Configuration Manager 4.2, UCM, Rational ClearQuest.

 Worked on tools like Global software release system.

- Provides Support to Build and Release Management of the Project Teams working Globally.
- Contribution - Deployment of the source code from ClearCase UCM to SYS, UAT, PREPROD and PROD environment.
- Setting up the various Environments for the Application.
- Setting up the Tivoli Software Package for the projects globally.
- Identify and configure the EndPoints for each environment of the projects.
- Validate the Approvals and Promote to next level in Rational ClearQuest.
- Configuring the Build Environment.

- Configuring the Project Runtime paths on SIT, E2E, PREPROD, PROD server

Client Communication (through e-mails)

- Developed and implemented **PMO**, Project Management dashboard, project management tools, standards, and methodology and other processes.
- Status reporting to both customer and Wipro management
- CR (Change Request) Management. End to end ownership of understanding customer requirement (CR) and preparing Impact Assessment (IA) and keep track of this till the closure (software deployed)

PMO Activities

Client Communication (through e-mails)

- Developed and implemented PMO, Project Management dashboard, project management tools, standards, and methodology and other processes.
- Status reporting to both customer and Wipro management
- CR (Change Request) Management. End to end ownership of understanding customer requirement (CR) and preparing Impact Assessment (IA) and keep track of this till the closure (software deployed)

Software Release Management Activities

- Ensuring requirements are clear across dependent project streams with a release.
- Tracking changes to requirements and communicate impacts to externally dependent product releases.
- Managing the deployment of the deliverables to the test environment specifically ensuring that the external dependent items are available at test runtime.
- Managing the deployment of deliverables into production (e.g., ensuring all internal and external pieces are collected for distribution and the distribution occurs to the correct group of potential users and targeted locations).
- Validating the release notes.
- Validating the release is operating as expected.

1. Change And Configuration Management

Tool Knowledge

1. Rational Team Concert
   Urban deploy

2. SVN

3. Sharepoint

4. Weblogic,

5. Websphere

SCM Activities

1. Lead engineers to corporate-wide engineering development environment for change and configuration management

2. Release planning, monitoring and reporting on the same management

3. Process lead for sector and systems release management, and CM development, CM system product/project manager for a team producing releases using iterative development, automated testing, and weekly customer meetings for feature and change planning

4. Developed, maintained, and supported a complete ClearCase-based SCM environment for several hundred users

5. Training and facilitation to users on VM tool best practices

6. E2E testing (manual)

Deployment associated for many applications such as, Oracle, Tibco, SAP CRM/CI/ERP, Hp,Novelvox, DIB, Comviva etc.

Year 2010 to 2015 Graduation & Master degree

Company Name : SCICOM

Work location Bangalore(India)

From July 2008 to August 2009
Role: TSE
Client : Nokia
Deployment in various environments.
TFS 2008, VSTS, Websphere, Informatica & Linux
Windows Support.

Company Name : Global Computer Academy

Work Location : Chittaranjan
From July 2002 to June 2008
Role :- Desktop Support Engineer
Desktop support
Assembling job for desktop,
Network Engineer

ACADEMIC QUALIFICATIONS

Degree/Examination   University/Board

MCA   Calorx Teachers University

The above details are true to the best of my knowledge and belief.
